Abstract Write your abstract here. The abstract should briefly summarize the main contributions, methodology, and results of your paper.

Keywords: Keyword 1; Keyword 2; Keyword 3; Keyword 4

1 Introduction

Write your introduction here. Provide background context, state the research problem, and outline the paper structure [1].

The main contributions include:

- Contribution 1
- Contribution 2
- Contribution 3

2 Methodology

2.1 Problem Formulation

Describe the problem formulation. Key equations should be numbered:

$$f(x) = \sum_{i=1}^n \alpha_i \cdot g_i(x) \quad (1)$$

Definition 2.1 (Term Name). Provide the definition here.

Theorem 2.2 (Theorem Name). *State the theorem here.*

2.2 Algorithm

Algorithm 1: Algorithm Name

Input: Input parameters

Output: Output results

1 Step 1 description;

2 **for** each iteration **do**

3 | Update step;

4 **return** final result;

3 Experiments

表 1: Dataset Statistics

Metric	Dataset A	Dataset B
Samples	XXX	XXX
Features	XXX	XXX

4 Conclusion

Summarize the main findings and discuss future work.
